Mr. Lee Martin  
[REDACTED]

Dear Lee:

Your letter of Sept. 17 was received just as I was about to contact you regarding your appointment as chairman of N.A.W.

I purposely did not name any others to your committee when I named you because I wanted to confer with you first. I, too, think that you should have local numismatists work with you to make it easier to carry on the project. If you can think of any ANA members whom you would prefer to have named, I would ask you to submit them. Otherwise, I will submit some names for your approval.

As for any instructions and material to be furnished to you, I will, by carbon copy hereof to Ed Rochette, ask him to send you everything you will need without delay. I do not know if he has a theme or slogan in mind for 1971. If he has, he will tell you.

*scrapbook &  
but from 20 sent.*

I would like to get together with you in the near future for a discussion. I am leaving soon for Colorado and Washington D. C. and will return early in October. Suppose we look to a date later in October.

Sincerely,

Herbert M. Bergen  
President
